

Summary of Energy Savings after installing Tripolymer Injection Foam Insulation into a home located in Lansing MI. The home is a simple ranch, with typical 2x4 construction.

An Energy Audit (HERS Rating) was conducted by a Certified HERS Rater before Tripolymer Injection Foam Insulation was installed. A second Energy Audit (HERS Rating) was conducted a few weeks after Tripolymer Injection Foam Insulation was installed.

NuView Insulation Installed the Tripolymer Injection Foam Insulation. The installation process was observed by the HERS Rater.

	Above Grade Walls	Air Infiltration
Annual Heating Cost Before Tripolymer®	\$644	\$413
Annual Heating Cost With Tripolymer®	<u>\$332</u>	<u>\$328</u>
Reduction in Energy Costs \$	\$312	\$85
Reduction in Energy Costs %	48%	20%
